SENDING THE SWAMP INTO THE SEWER! / KAMIKAZI DRONES!

Original Air Date: 12.07.24

Segment.01 Hello. I'm Dr. Jerry Scheidbach, pastor of the Lighthouse Baptist Church in Santa Maria, CA, and your brain masseur. Get ready for your brain massage.

Latest on the PENNY CASE: The jury is deadlocked. The prosecution urged Judge Wiley to dismiss the major charge, “second-degree manslaughter,” hoping this will avoid a mistrial. The judge obliged the prosecution against the objections of the Defense, who argued this could lead to a coercive or a compromised verdict.”<sup>1</sup>

Taking hold of the plug that will drain the “swamp” into the sewer. It's deep water, and the plug is stubborn—but it will yield if WE DON'T.

Does the Bible offer any insight regarding power transitions? You bet it does. I'll touch on it here, but I'll be speaking on this subject Sunday night, 5 pm, at the Lighthouse!

Russia seems to be willing to let the Assad regime fall<sup>5</sup> to the power of an Al Qaeda breakaway group called Hay'at Tahrir al-Sham, or HTS, designated a terrorist group in 2018.<sup>6</sup> Russia explained they are too busy with Ukraine!

Taking hold of the plug that will drain the “swamp” into the sewer. Dinesh D'Souza presented an episode on Trump's declared intention to drain the swamp, and he titled it *Schedule F*.<sup>13</sup> It refers to an executive order Trump signed that allows government Department Heads the power to fire unproductive or counterproductive bureaucrats.<sup>14</sup> Drew Friedman, writing for Federal News Network, warns that “Trump's promise to revive Schedule F could become a ‘prompt’ reality.”<sup>15</sup> The Washington Post hides their warnings about this behind a pay wall, so! The point being: the “Deep State” is wetting its pants over this.

On October 21, 2020, Trump signed Executive Order 13957.<sup>16</sup> It is titled: “Executive Order on Creating Schedule F In The Excepted Service.” Biden ended it on day one of his usurpation of the White House.

Trump explored the swamp looking for the plug; he finally found it when he came to understand the forces of evil usurping American's rights and continuing the globalist agenda was nested in the vast American bureaucracy — government employees answerable to no one except those with the power to advance their careers.

These bureaucracies hold immense power over the people because they are the ones who create the rules by which the laws of Congress are applied and enforced. They have been granted broad discretion — so much so that in a 1984 SCOTUS decision called the Chevron Deference,<sup>17</sup> in which the court gave bureaucrats carte blanche in deciding rules and regulations, deferring to their decisions regarding the interpretation and application of Legislation. No one could challenge a bureaucratic rule because the Legislature and the Courts gave the Bureaucracy departments the power to regulate — without any accountability to anyone — not even the people they would often oppress. The Courts effectively gave the people no protection from rogue bureau chiefs.

In a recent case, the Court voted 6-3 to end that ridiculous legal doctrine. The case that overruled Chevron is called the Loper Bright ruling, and it reverses the Chevron decision. Bureaucracies can no longer run roughshod over the rights of the people without accountability!<sup>18</sup> We can challenge their interpretation of Laws if we believe their interpretation and application of their rules diminishes our rights.

So, put this together, and you've put the plug of the swamp into the hands of the people and their President. Trump comes into office and reinstates the Schedule F executive order, and the PEOPLE are

given the power to challenge oppressive administrative rules—  
[GET GURGLING SOUNDS].

It's a bit complex, but complexity creates confusion, and confusion provides cover. We must go after every deep-state RINO — and pray for the exposure of some undercover globalists, controlled opposition, and compromised representatives and get them out of office. They pass a law, and they give the power of regulation and rule-making — the place where legislation actually touches our lives — to unelected bureaucrats who then use the vagaries, I think intentionally written into the laws, by the way, to abuse the people under the color of that law. Some key legislatures know this game and play it well.

The people think they can find relief from our courts, but the court says we will make a rule that when these disputes arise, we will defer to the bureaucrat's understanding of the law and what rules are necessary to enforce it. In other words, and some jurists have actually said this, it is for Congress to clarify this, not the Court.

It's a gray area! Of course the Court is supposed to CHECK any legislation that is not in conformity to the Constitution, and when the application of rules and regulations do encroach upon our liberties, it is the responsibility of the Court to use its power to check the legislators and require them to revisit the law.

But, in Chevron, the Court punted.

Trying to get those rascals in DC to do anything about these rogue bureaucrats oppressing the people like little dictators ruling our lives is almost impossible.

Now, the Court has signaled a readiness to listen to the people's complaints against an overreaching bureaucracy, and the president will have new tools to check the Bureaucracy — and what that will do is take away the hiding place of the Deep State operators — as

the swamp is drained, they will be exposed, deposed, and dispatched.

I need to take a short break. Merry Christmas, my friends. I'm dressing up my book, God's War, with a new title and cover — and I'll be announcing a great Christmas offer next week. Hold on, I'll be right back.

Segment.02 Hello. Welcome back! I'm Dr. Jerry Scheidbach, pastor at the Lighthouse, your brain masseur, and Paul Revere's lantern lighter, lighting the lamps in the church belfry arch, signaling the enemy is on the march, an enemy that would steal from us our liberty.

Update on Trump's appointments as he pick-n-rolls to score!

Middle-of-the-road Cornyn<sup>19</sup> is confident Kash Patel will be confirmed.<sup>20</sup> Kash will make an exceptional FBI Director. If anyone can identify what needs to be done and has the courage to do it — it's Kash.

We are not hearing any rumblings among Republicans against Pamala Bondi for Attorney General.

Who knows, maybe they got their “pound of flesh” with Matt Gaetz — although it's very clear Gaetz is not out of the picture. In fact, Trump has a role for him that is just perfect: let Bondi appoint him to be Special Counsel to run down — all this junk! Especially the J6 insurrection perpetrated by the Demoncrat Party, and other examples of the weaponization of our government against innocent citizens for political, not criminal offenses.

But what about Hegseth? Hear his testimony here.<sup>21</sup> I think he sunk a three-pointer. Joni Ernst is threatening Trump she'll call for all female Senators to vote against Hegseth unless he dumps the Hegseth nomination. They've floated the idea that Joni is second on Trump's list for Secretary of Defense (head of the DoD).

Some of this crazy behavior reminds me of the sort of thing we read about in the Bible—with intrigue, political maneuvering, undermining a pick, or eliminating one—all the jostling and angling for a place of power in the new administration. Of course, then they would often resort to assassination—oh, wait, that's been tried. Did you hear Hegseth, RFK? I think it was RFK and Tulsi that I read had received bomb threats against them and their families that their protection detail took very seriously. In fact, here is an article that informs us numerous cabinet picks have had their lives and the lives of their families threatened.<sup>22</sup>

Do you remember hearing anything like this when Biden and Harris stole the election in 2020? They'll point to J6, and very soon, we will point to the exposure of Nancy, Schumer, and the FBI traitors that will prove beyond doubt that, nope, that was you! It's always you!

Because you are of your father, the devil, who comes only to steal, kill, and destroy. You are liars, like the god you worship! Are you saying these people worship Satan? Well, look, the woman at the well thought she worshipped the same GOD Jesus represented, but He told her, "Ye know not what ye worship." Clearly, the behavior behind the bomb planted at the DNC headquarters, and the subsequent efforts to cover that up and distract us from looking any further into it are all actions consistent with the worship of evil.

There are many parallels between this transition and the transition of power from Saul to David in 2 Samuel. Come hear about it Sunday night, 5 pm, at the Lighthouse.

Hegseth went through a bad patch after he came from war. That's a very common story; our heroes come from war, and adjusting to civilian life can be very challenging. It does not excuse bad behavior, but it does explain it.

That is a biblical principle, by the way. Paul confessed that before his conversion, he was a blasphemer and a murderer. He explained that, however, he obtained mercy, and he told us it was because he did it ignorantly, in unbelief.<sup>23</sup> His ignorance was not an excuse, but it did explain.

Listen to Hegseth's own words responding to this in a perfect summary:

[INSERT 84.HEGSETH +1 page]

Hegseth is right! The American people understand redemption. And what a powerful testimony of his openness and transparency about his own past failings, none of this finger-waving denial, "I did not have sex with that woman, Lewdinsky." His open confession of Christ is wonderful — I don't think I've ever seen a time when we have seen such open declarations that JESUS IS LORD and the CHRIST IS KING from public personalities.

Okay, let's wrap it up with Kamikazi Drones.

concerned residents: Don't worry, and don't touch one if it lands or falls from the sky. What is going on?<sup>25</sup>

Well, it so happens that car-sized drones are in the news elsewhere.

In Syria, HTS, the Islamic terrorist group attacking the Dictator of Damascus, Assad, is using suicide drones.<sup>26</sup> I wondered about that. How would a drone be a suicide drone unless it is not designed to return from mission but to be destroyed — to deliver a payload that takes out the drone with its target? Right?

I read somewhere that Russia is pulling its Navy from Syrian ports because of concern about these drone attacks.

Using Drones to kamikaze into ships and citizens?

Here is an article informing us that Russia is deploying thousands of “suicide drones” in Ukraine.<sup>27</sup>

I think a better name would be Kamikaze drones?

Is that what this is? I'm having a hard time believing no one knows what these are, why they are showing up in New Jersey near one of Trump's golf courses.<sup>28</sup>

How is it possible the FBI has not been able to figure out where they are coming from and who is behind this?

These drones have been spotted flying in New Jersey skies near one of Trump’s golf courses. But maybe these drones are more interested in the Picatinny Arsenal army base.<sup>29 30 31</sup> An ARSENAL!

Remember the Balloons?

Here is a statement about these drones; tell me, what does this sound like to you?

“Large, mysterious drones have been spotted flying over New Jersey, particularly in Morris and Somerset counties, alarming residents and prompting an investigation by the FBI and local law enforcement. Officials have stated that there is currently no known threat to public safety, but they are actively monitoring the situation.”

I pulled this off the Internet, but I can’t find it now. That’s weird. I don’t know, maybe I’m just not seeing it.

It’s weird for a lot of reasons. First, car-sized drones are hugely expensive — these are not drone enthusiasts.

It’s rare to see anyone flying these at night unless they are equipped with infrared or other night-sight tech — which just shot up the expensive thing, like, exponentially.

Now multiply that by “swarm.” These are flying for durations that — well, the point is, these are very likely military grade drones — AND ANYONE WHO DOES NOT HAVE A QUESTION ABOUT WHY THE DoD would be conducting any such exercise over New

Jersey, and not use, I don't know, Area 51 for something like this. And if it's DoD stuff, why have they not come up with a better answer than "We don't know"?

Are these cowards trying to scare the people? Are these stories being circulated together: Terrorist group in Syria using suicide drones (Kamikazi—DRONES), Russia is sending thousands of these into Ukraine — and really BIG car-sized Drones are flitting about in New Jersey's skies scarring Americans all over the country. There's talk of an "alien invasion." The space alien stereotype suggests they'd have more sophisticated flying machines than Drones. Or, are they drones???? Haha.

Look, I can't say what this is about with any certainty. But if I was going to throw in my theory, it would be some nefarious Deep State game that's connected with trying to provoke Americans to be afraid! And it might not even be a threat to the people, but a warning to Trump, and others that we had better not go too far with this reclaiming America as a Christian Nation thingy!

Merry Christmas!
