Democrat Representative Hakeem Jeffries threatens to bring the fight against Trump’s Federal Funding Freeze in the courts and “in the streets.”⁴

Let’s take a look at what the Department Of Government Efficiency (DOGE) is doing: what power do Elon and Vivek actually have? What are they targeting? What are “Zombie” programs, and are Elon and Vivek cutting Veteran’s Medical care?⁵

I think the enemy is flooding us with clever misinformation scams, trying to stick it to us for objecting to their bogus fact-checking and censorship under the guise of “protecting” the public from “misinformation.” This new effort is actually an old trick — flood the “zone” with deepfakes in order to break down our ability to believe anything. It’s a scheme to destroy our confidence in objective truth, making us vulnerable to manipulation. Beware!

Black Hawk down! That was a very sad October 1993 Somalia story — Clinton’s Eagle’s Claw Carter moment in Iran. We are all watching and waiting to find out the truth about the Black Hawk helicopter that crashed into the American Airlines passenger jet in mid-air over the Potomac during its descent to land at Reagan National in DC. The latest from Trump that I have is a post on Truth: “The Blackhawk helicopter was flying too high, by a lot. It was far above the 200-foot limit. That’s not really too complicated to understand, is it???”⁶

CALIFORNIA: Trump sent military into CA under emergency powers to turn on the water. The millions of gallons Newsome policies have been dumped into the Pacific will now flow into Southern CA.⁷ Wow, this one has the Libs freaking out! Let's take a look.

The fires are covering 16,000 acres, with hundreds of thousands of structures — houses, apartments, businesses— ashes.

Meanwhile, Newsom is playing his fiddle — watch him. The guy literally bounces around like a bobblehead — see him? It's like he is dancing or something — what is he working on his own version of the Trump dance? He looks silly, rocking his shoulders, waving his hands — it's unreal. This guy has got to go!

He is talking about a fire disaster, the likes of which not even California has ever seen, and he's dancing and grinning like an idiot.

Anyway, he is calling Trump a liar, denying that the military has come to California to turn on the water. Here is what they admit! The US Corps of Engineers is an army unit that has been deployed to CA to help with the LA wildfires. Some of these or some other deployment was made to restart “federal water pumps after they were offline for maintenance for three days.”⁸ What they don't talk about is who was the idiot who decided now is the time to turn off water for “routine maintenance”? What is it about Trump issuing an executive order directing multiple agencies, including the Department of Defense and Department of Homeland Security, to

respond to California's Newsom policies created disaster that you don't understand, Mr. liberal wise guy! Hahaha.

Yeah, here is a guy carping about all the conservative idiots who think Trump sent the US Military to "invade the delta." [IBID]

Wow! It's one thing to exaggerate when complimenting or when describing, but it's not good when accusing! Trump did not say he sent the military into California to "invade." He DID sign an EO directing multiple Federal agencies, including the DoD and the DHS to use their resources to help get water to Southern CA. Whether he even had the federal water plant in mind is an open question — he might have, but certainly, that is not all he had in mind. Trump is the sort of leader who says you are closing down a water plant for routine maintenance while LA is burning to ashes — that's got to be the stupidest thing I've ever heard. TURN THE WATER ON, YOU DOLTS. Anyway, the article I'm reading says it was routine maintenance, maybe repairs were necessary — these news items tend to change shape as we get more information. But it does not change the POINT!

President Trump used his powers to get things hopping toward solving a problem that Gavin created by his foolish policies and abuse of his powers. THAT's the POINT! Bullseye!

Hey, what do you think about terminating the Department of Education and returning power back to parents and teachers?⁹

I read the entire text of the Bill.¹⁰ It's really short. Are you ready: "The Department of Education shall terminate on December 31, 2026." END.

⁹ 1023.13.1-Rep. Massie Reintroduces H.R. 899 to Abolish the Federal Department of Education | U.S. Representative Thomas Massie <https://massie.house.gov/news/documentsingle.aspx?DocumentID=395684>

Public schools have become tyrannical over parents. That's what happens when the Federal government takes over the education of our children. The same thing happens on the state level. Education is the provenance of the home and the church. When the government gets its hands on it, bank on this; corruption is soon to follow.

There is no social program the government gets involved in that does not become corrupt. Take the NGOs as an example. The NGO is a Non-Governmental Organization. Like the NGO that was distributing flyers to the migrants illegally crossing our border that provided instructions to remember to vote for Biden. In fact, these “non-government organizations” are nothing else but fronts for a money-laundering scheme and a shadow organization used by the government to conduct operations otherwise illegal for the government. It's another version of what the Obama-Biden administrations attempted to do with social media companies especially, but almost all other businesses and corporations too.

Some Senator or Representative gets money from the government to fund this, or that nongovernment organization, and that organization gives a kickback to that politician's campaign fund.

The government can't encourage illegals to cross our borders or engage in human trafficking, but non-government organizations can get away with it under the guise of benevolence—so government operators in the CIA and, apparently, also, the FBI would set up these NGOs to conduct these illegal operations —

The government cannot suppress free speech, but private companies can. So the government muscled the owners of these giant social media companies to do it for them. They can't suppress information to the public, but privately owned businesses can, so that's how the government gets it done. The government can't enforce mandating face masks — So they use their ability to punish businesses to manipulate the business owners to do it for them.

By the way! That's fascism! Yep! Fascism is exerting government control over the population through businesses.

Every businessman and woman who sold out their communities to become the fascist arm of the government to oppress us during COVID should be ashamed.

They are going to try it again. It's going to be harder because Trump is wise to them now. But if Newsom thinks he can get away with it, he'll strap a face diaper on your face and tell you to stay home, and keep the kids from school, and shut down churches and the local mom-and-pop stores but leave the big box stores open and of course, the bars — they've already made several feints toward grinding us under their heel again but Americans are on to them, at least enough of us to make them hesitate.

Get my book, *Let My People Breathe*, Scheidbach — not only will you learn that masks don't work, but you'll learn something even more important. You'll learn what the Bible really says about our responsibility to the government and the government's responsibility to the people.

Okay, my friend, I need to take a short break. Hold on, I'll be right back! I've got some insight into the Black Hawk-Jet crash that you'll find very interesting. And, what's DOGE actually doing?

Segment.02 Hello. Welcome back! I'm Dr. Jerry Scheidbach, pastor at the Lighthouse, your brain masseur, and Paul Revere's lantern lighter, lighting the lamps in the church belfry arch, signaling the enemy is on the march, an enemy that would steal from us our liberty.

Democrat Representative Hakeem Jeffries threatened to bring the fight against Trump's Federal Funding Freeze in the courts and "in the streets."¹¹

¹¹ Full press conference here: [duck://player/xGXSqqvK7xE](https://www.youtube.com/watch?v=xGXSqqvK7xE) On YouTube <https://www.youtube.com/watch?v=xGXSqqvK7xE> The excerpt used here begins at about 14:46

The claim is that Trump's Federal Funding freeze will cut off Meals On Wheels, Early Childhood programs, and other social programs but does not mention that Trump has said funding that supports Americans will not be interrupted.

Get ready for the unreasonable and wicked rulers who have had their power taken away to fight like a big-eyed Tuna or yellowfin—probably the best fight I've had on a hook-and-line pole was carp, and a feisty bass — Northern Pike are fun too — but there nothing quite like hooking an angry antichrist bureaucrat. Whew!

It should not be surprising, considering they're the spiritual spawns of Leviathan—and GOD warned us about that character: “Canst thou draw out leviathan with an hook? or his tongue with a cord which thou lettest down. ... Lay thine hand upon him, remember the battle, do no more” (Job 41:1, 8). God said, “None is so fierce that dare stir him up” (Job 41:10); well, we've stirred him up, friend.

But here is the difference between Job and us. God said, None is so fierce that dare stir him up: who then is able to stand before me?” Greater is He that is in us, than he that is in the world.

Hey, if you have seen the children of disobedience begin to fall before you, beware you don't forget you cannot stand up to this evil apart from GOD.

You want to think you cast down Leviathan by your own strength? Go ahead. You have a saying; it's coarse and uncomely; you say FAFO. I'll defer to the more manly sensibilities who are offended when someone degrades human language with vile expressions that drag the honorable institution of marriage into the gutter with you and degrade the marriage bed as carnal service to flesh, soulless, and without the profound spiritual power that makes of twain one — a lifetime bond of what was once “holy matrimony” — and curse this precious ground and foundation of family, breaking the vow, and so breaking the very foundation of society — the FAMILY — so, excuse me, if some of us recoil at the crude, obscene, and ill

manners of those who have that perverse inclination of some that corrupt the pure into the profane, like the name JESUS, and His titles CHRIST, or GOD, or despise into disgrace the sanctity of holy matrimony into a shallow and hollow act of “plugging the earth with your seed”—you probably didn’t know that’s the actual meaning of the French word you have borrowed to curse!

So, while I think the sentiment expressed is worthy, excuse me if I forebear your manner of expressing it — I’ll convert your euphemism into something less pungent: Blaspheme and FIND OUT.

I speak to my fellow conservatives now! I warn you! Go ahead and think it’s okay to promote “same-sex marriage,” which denies the image of GOD, blasphemes the Creator, and denies His CREATION, and like the transgendered has denied His natural assigned gender, the CREATOR will deny you! Dismiss the GOD of the BIBLE as inconsequential to our victories of late—BFA — blaspheme, and find out!

Will you ridicule those who think themselves men and ridicule those who imagine thinking it makes it so — and then turn around now and say we all know some biological man or woman that has “transgendered,” and we can’t imagine them being anyone else?

You don’t see the enemy. is finding a way to sow the seeds back into the soil that will grow into the same evils we have lately rejoiced were put down. No biological man becomes a biological woman through any surgery or other means and no man that is effeminate, or an abuser of himself with mankind will inherit the kingdom, and even the Spirit expresses some surprise at such distortions, saying, “For even their women did change the natural use into that which is against nature: and likewise also the men, leaving the natural use of the woman, burned in their lust one toward another; men with

men working that which is unseemly, and receiving in themselves that recompense of their error which was meet” — or fit!¹²

BFA — Blaspheme, and find out. You’ll see yourself suddenly swallowed by Leviathan! I’m telling you, homosexuality is an abomination, and those caught up in that dark perversion are not okay!

Well, let’s get back to the point here. With regard to Trump Federal Freeze: The freeze affects those who are here illegally and foreign aid. I suppose that if Meals on Wheels is carrying meals to illegals or if Early Childhood programs are enrolling illegals, then, yes, in that case, it will affect them. But otherwise, the point of the Freeze is to temporarily stop all Federal hiring and foreign aid, and permanently stop federal funding for the support of those who are here illegally. This is actually the plan my wife suggested we should use to stop the invasion way back in the Bushy days! Wait, actually, I think she suggested that as far back as Reagan.

With regard to DOGE — they are providing a wonderful service to this country. However, only Congress acting in assembly can actually affect the changes they recommend to achieve the effect they envision. DOGE cannot “do” any of the things I heard this guy say they did.

The sorts of things DOGE is targeting: 1.7 million for the Federal bureau of Advanced Stapler Engineering, 1.2 million annually for the National Institute for Memo Formatting Standards, 800 thousand for the Bureau of Desk Plant Placement Optimization, 1.5 million for the Commission On Conference Room Chair Synchronization, 2 million annually for the National Punctuation Integrity Project, 900 thousand annually for Binder Clip Durability Testing, 1.3 million for the Office of Highlighter Color Coordination, 2.4 million annually for the Research Initiative on

¹² Romans 1:26-27

Pencil Sharpening Efficiency, 1.6 million annually for the Strategic Paperweight Development Program, and 3 million for the Office of Redundant Documentation Reduction.¹³

Hmmm? None of this would surprise me, but for your information, I could not verify a single one of these — NOT ONE! I could not find that any of these Bureau's even exist.

I think the enemy is flooding us with clever misinformation scams, trying to stick it to us for objecting to their bogus fact-checking and censorship under the guise of “protecting” the public from “misinformation.” This new effort is actually an old trick — flood the “zone” with deepfakes in order to break down our ability to believe anything. It's a scheme to destroy the paradigm of objective truth, making us vulnerable to manipulation. Beware!

We are all targets for this. Charlie Kirk got slammed for “reporting” that Tulsi has been confirmed.¹⁴ However, it appears this is a fake account—they are using Charlie's image and name, but it looks like a fake account. X is being seriously attacked with this sort of thing — “they” are trying to beat us into submission to their vision of controlled speech by flooding free speech with fake news. So, we are dealing with devils for sure; either we let them control the narrative by surrendering “truth” to their sole control, as it is defined by their government-crafted narratives, or they will “swamp” us with fake news of false reports of things we want to believe or hear — this is designed to make us think maybe we made a mistake by taking away the whole fact checker apparatus.

It's already working a little bit. Now, our side has a mechanism for flagging false stories called “Rapid Response.” But there is a big difference. In our case, we are merely showing up in the discussion and delivering our point of view or correcting the story with facts.]

¹⁴ <https://x.com/CharlieKNews/status/1885404178194772221>

The battle between the “Left” and “Right” is being recast in terms of the Dems for the poor and the Republicans for the rich.¹⁵

As for what DOGE is recommending, they targeting what are called “Zombie” programs. These are federal programs whose funding has gone beyond Congressional sunset and the Congress needs to man up and address these. They need to make them permanent budget items or end them. It’s forcing Congress to DO THEIR JOB.¹⁶

I need to conclude. Let’s look at the latest Black Hawk down escapade. We are all watching and waiting to find out the truth about the Black Hawk helicopter that crashed into the American Airlines passenger jet in mid-air over the Potomac during the Jet’s descent to land at Reagan National in DC.

The latest from Trump that I have is a post on Truth: “The Blackhawk helicopter was flying too high, by a lot. It was far above the 200-foot limit. That’s not really too complicated to understand, is it???”¹⁷

The military Black Hawk pilot was off the Tower-approved course by half a mile and flying above the 200-foot altitude restriction by over 150 to 200 feet.¹⁸

An FAA safety report revealed that staffing at the tower for Reagan National was “not normal.”¹⁹ One controller was covering both helicopters and planes. However, the Black Hawk operator was a U.S. Military grade pilot, the crew was “very experienced,” and the Tower instructions, if followed, would have avoided this accident, it appears this angle on the story is moot, at least with regard to the question, how did this happen? They found the Airline's black box, but the Black Hawk black box is still missing?

So far, the contenders for culprit are as follows: DEI got scrambled into a literal DIE — someone was promoted to a position because of the color of their skin, gender, or sexual preference, and someone else who was more competent, more qualified for the job, was overlooked because his skin was not the right color, it was white, his gender was not what they were looking for — he was not a female, the candidate identified with his or her biological gender, or he or she was straight.

From Daily Mail, referenced by Trump: “FAA launches recruitment campaign for workers with ‘severe intellectual’ disabilities, psychiatric problems and physical issues to hit woke DEI targets.”²⁰ So, the X-file that claimed 3,000 top-performing applicants for controller jobs were rejected in favor of DEI hires is believable even though that page has been removed.²¹

So that’s culprit candidate number one: DEI. The second suspect is a twist on the first: some DEI hire got fired and decided to kill himself and over 66 others while throwing a fit. ???

Another theory is that it's operator error. One of these suggests the Black Hawk pilot misunderstood Tower communications. He was apprised of an oncoming collision but thought the Tower was talking about a different plane.

New York Post provides a visual timeline of the event, [here](#).²² 5:18 PM American Airlines flight 5342 departs Wichita, KS, toward DC. 8:39:40 An Army Black Hawk departs from Fort Belvoir, VA, with a crew of three, flying up the Potomac River. At 8:40 PM, the passenger jet begins its final approach to Reagan National, descending to land on runway 33 from the South. 8:48:38 Air Traffic Control radios the helicopter asking if they see the American Airline passenger jet. The Black Hawk pilot confirms visual contact and requests visual separation (that means, leave it to me to maneuver out of the path of the incoming jet). It's approved.

Whatever “adjustment” of the flight path that was made by the Hawk, it did not include dropping altitude, and it does not appear it included a change in his compass setting — he proceeded to fly directly into the flight path of the airliner. So, the “theory” is that he was looking at the wrong plane. Excuse me? Look at the representation given here and compare that to what you see in the videos circulating.

Here is the opinion of an expert on these things; he says the investigators are almost certain to zero in on the altitude of the Hawk. It was from 150-200 feet above the 200-foot ceiling for copters in that area.²³ The Hawk's altitude is taken from

FlightRadar24 data — the system used to track and record aircraft for most flights in the US.

Another expert, a former Hawk pilot, asked, “Why didn’t the pilot turn? why didn’t [the pilot] even slow down ... Why they didn’t deviate from their flight course at all — speed or altitude?”²⁴

That’s my problem with this.

This area is considered to be a “natural air corridor” — that means the topography provides enough information for a pilot to visually know where he is — and since we know the Hawk received and acknowledged contact from the Tower, wouldn’t the first thing be to check your instruments?

I have had a little bit of flight training, and that’s like the first go-to. What’s my altitude, speed, and compass? It’s practically instinctual. The only thing that makes sense is that the pilot mistook what plane he was warned about — but the pilot would know to look for a plane with a flight path intersecting his, and all traffic coming in is heading in the same direction — and furthermore, alarms about an impending collision were sounding at least 30 seconds before the crash — there are a lot of questions that will be answered when, if, we find the black box.²⁵

Here is what we know. The Hawk pilot was off his flight plan, the critical error being he was between 150-200 feet too high and half a mile off course. Why? This was reported as a “proficiency training

²⁵ A little aside I had to delete: [By the way, Schiff, that’s a rhetorical use of the word “we,” apparently, your brain is too weak to understand sophisticated concepts like that. But Kash was right, and you are wrong, as usual. Hopefully, Kash will soon have the opportunity to “cash you out.” Get that? Or is that also obscure for your second-grade intellect? Actually, that’s an insult to second graders; they’re smart enough to know what it means to say, “We won!” even though he didn’t even play in the game—still, his team won, so! Schiff, drilling down on your stupid “you said we” argument makes you look foolish—but back to the Hawk-Jet crash over the Potomac.

exercise.”²⁶ That means the crew was highly trained and experienced. So, who knows what conspiracies might begin to percolate to the surface:

Why was this helicopter a half mile off course and flying above the 200-foot ceiling for copters in that area? This all leads to the burning question: who was on that plane? So far, nothing has come up that sends off flares. They are still pulling bodies out of the Potomac — will there be one they can't find, or maybe two, to provide cover for the attention given to “the one” that mysteriously disappeared? Will there arise some “doubts” about the manifest? A name or two that comes up suspiciously anonymous.

A big conspiracy driver will be if we come up with some funny stuff regarding the flight manifest, coupled with the inability to recover one or more of the passenger's bodies. That will keep us talking about this for years.

Let's see, we've been talking about JFK since 1963 — that's, what, 60 years, 61 years and finally, we have a President who is not afraid of the TRUTH and has ordered the release of all files on the assassination of President John F. Kennedy — Americans are not going to break under the shameful truth, but we will sure be angry at the Deep State government when it finally comes out that we were right all along—the leadership in the CIA and FBI with the DOJ colluded together to murder American President, and another one they thought to murder escaped by the grace of GOD and will be the President to BRING THEM DOWN. You have heard that our newest Senator from Florida reported that the Obama/Biden
